

SPIROMATIC 90USA

SELF-CONTAINED BREATHING APPARATUS

- ❶ Well-proven pneumatics and robust design
→ **Reliable operation**
- ❷ First breath activation of positive pressure
→ **Positive pressure is always ensured**
- ❸ Excellent breathing performance
→ **Low resistance breathing**
- ❹ Open backframe design
→ **Better heat ventilation from body**
- ❺ Audible low air alarm is mounted on the chest
→ **Easy to locate and hear**
- ❻ Available with extra air connection
→ **Can be connected to an airline system**
- ❼ Accepts eye glass kits and communication devices
→ **Flexibility for different users and purposes**

SPIROMATIC 90USA

SELF-CONTAINED BREATHING APPARATUS

REFERS TO PRODUCT(-S) WITH PART NO. (-S)

30136-01	HP, Blank cover
30136-04 connection	HP, Speech diaphragm, extra air
30136-50	LP, Blank cover
30136-53 connection	LP, Speech diaphragm, extra air

SPIROMATIC 90USA is a simple but effective breathing apparatus (SCBA) for industrial and maritime environments. Spiromatic 90USA is built upon proven and reliable components, with decades of solid performance and reliability. The Spiromatic facemask, breathing valve and regulator deliver real performance at a competitive price.

The facemask maintains positive pressure throughout the breathing cycle to eliminate the risk of inward leakage from the surrounding environment. Positive pressure is automatically activated by first inhalation as soon as the mask is donned, so it can never be forgotten or turned off by mistake.

The audible warning is mounted on the chest; so the low air alarm will be heard even under noisy conditions.

The backframe is equipped with padded shoulder straps and easily adjusted hip belt buckles, for maximum comfort.

Breathing apparatus from Interspiro is an investment with a long service life, when properly maintained. To simplify service and to obtain maximum product performance we recommend using our service kits, containing original spare parts necessary for preventive maintenance.

Interspiro offers training courses for users who perform day-to-day service work, as well as training for service personnel performing full maintenance programmes.

For more information about Spiromatic 90USA and our other breathing protection products please visit us at www.interspiro.com.

STANDARDS

- NIOSH 42 CFR Part 84

MATERIALS

Mask Body	Natural Rubber
Inner Mask	Natural Rubber
Visor	Heat Resistant Polycarbonate
High Pressure Hose	Stainless steel
High Pressure Hose cover	Highly abrasion and chemical resistant polymer
Medium Pressure Hoses	EPDM
High pressure parts	Nickel/Chromium Plated Brass
Backplate	Heat Resistant Polymer
Webbing	Nylon

CYLINDER

Available with 30, 45 and 60 minute cylinders

OPTIONS

- Eye glass kits
- Radio communication

APPROVALS

- NIOSH
